excerpt from memorial tributes a compend of funeral addresses an aid for pastors a book of comfort for the bereaved there are few more delicate tasks falling to the lot of a minister than the conducting of what are known as funeral services it does not meet the difficulty to have provided for him a form employed over all without exception the best proof of which is that where such a form is in fixed use occasions are constantly arising in which the clergyman is constrained by his own sense of the fitness of things to add words of his own he thus runs the risk of making invidious distinctions while the uniform employment of the same language if it be fit in the case of a decided christian is stronger than the christian consciousness recognizes as fit where no profession of faith has been made among the ways in which the minister can prepare himself to discharge this duty is by the prayerful use of such helps as are within reach about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
