The Book of Wisdom. An English translation ... by Joseph Reider. [Foreword by Abraham A. Neuman.]. 1881

excerpt from the book of wisdom the greek text the latin vulgate and the authorised english version when i turned my attention many years ago to the book of wisdom there was no commentary in the english language that treated fully of this work save that of arnald this was copious indeed but cumbersome and often speculative and uncritical i felt also the want of some better revision of the text than was offered by the editions of the septuagint usually met with in england even tischendorf who had sung the praises of his sinaitic codex far and wide had made scarcely any use of this ms in his own editions of the septuagint contenting himself with noting the variations of the alexandrian and the codex ephraemi rescriptus taking the vancan text as a basis therefore i collated it with the sinaitic and the other uncial mss and with the cursives given in holmes and parsons work with occasional reference to the complutensian and aldine editions it was not till my own collation was just completed that i became acquainted with fritzsches libri apocryphi veteris testamenti a work of the utmost value though not quite free from mistakes in recording the readings both of the vatican and sinaitic mss these errors have been noted by e nestle in an appendix to the last eighth edition of tischendorf in confirming the text by reference to the fathers i have derived great assistance from observationes criticae in libr sap by f h reusch who has carefully noted the passages of the book quoted by early writers walton s polyglot has provided me with the armenian syriac and arabic versions for the sake of comparison i have printed the latin vulgate and the so called authorised english version in parallel columns with the greek the former is particularly interesting as containing many unusual words or forms which are duly noted in the commentary in elucidating the text i have endeavoured to give the plain grammatical and historical meaning of each passage illustrating it by reference to the writings of philo josephus the alexandrian writers and early fathers but i have been sparing of quotations from christian authors not from want of materials but because i did not wish my work to assume an homiletical form or to be burdened by reflections which an educated reader is able to make for himself about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
