en este innovador análisis del tipo de personalidad la exitosa autora gretchen rubin revela una pregunta simple que transformará lo que haces en casa en el trabajo y en la vida existen personas que respetan las reglas los horarios y los compromisos otras están dispuestas a resolver problemas y ayudar siempre a los demás algunas cuestionan y dudan de cualquier imposición y otras se niegan a obedecer o les gusta llevar la contraria tras años de estudiar distintos aspectos de la naturaleza humana gretchen rubin descubrió que podemos aprender mucho sobre nuestra conducta y actitudes si analizamos cómo respondemos a las expectativas propias y las de los demás como explica este libro revelador existen cuatro tendencias de personalidad los favorecedores los cuestionadores los complacientes y los rebeldes cada uno de

estos grupos responde de manera diferente a las relaciones de pareja y familia al trabajo y a sus propios objetivos las cuatro tendencias presenta claves para comprender cómo somos y cómo son quienes nos rodean para comunicarnos mejor compartir colaborar y alcanzar una vida más productiva creativa sana y feliz

Química: teoría y problemas

1817

learn how to achieve success and eat your marshmallows too with this motivational life changing book what explains the difference between success and failure and what does it mean to you and your children the answer lies in a landmark stanford university study children were left in a room each with a marshmallow and given the choice of eating it then or fifteen minutes later when they were promised an extra marshmallow as a reward for waiting some ate theirs right away others waited but the study s real significance came a decade later when the researchers discovered that the children who held out for the reward had become more successful adults than the children who gobbled their marshmallows immediately the lesson wasn t lost on joachim de posada a world renowned motivational speaker to thousands of corporate executives and professional athletes the marshmallow theory answered a thirty year quest to find a compelling explanation for why some people succeed and others fail posada was convinced that the key difference between success and failure is not merely hard work or superior intelligence but the ability to

delay gratification marshmallow resisters achieve high levels of success while the rest of us eat all our marshmallows at once so to speak accumulating debt and dissatisfaction no matter what our occupations or incomes but it doesn't have to be that way using a simple parable and real life examples including basketball great larry bird and major league baseball catcher jorge posada joachim's cousin this book shows you how the moves you make today can pay off big tomorrow if you just don't eat the marshmallow yet
