**Body Parts** 1996 in body parts e richard gold examines whether the body and materials derived from it such as human organs and dna should be thought of as market commodities and subject to property law analyzing a series of court decisions concerning property rights gold explores whether the language and assumptions of property law can help society determine who has rights to human biological materials gold observes that the commercial opportunities unleashed by advances in biotechnology present a challenge to the ways that society has traditionally valued the human body and human health in a balanced discussion of both commercial and individual perspectives gold asserts the need to understand human biological materials within the context of human values rather than economic interests this perceptive book will be welcomed by scholars and other professionals engaged in questions regarding bioethics applied ethics the philosophy of value and property and intellectual property rights given the international aspects of both intellectual property law and biotechnology this book will be of interest throughout the world and especially valuable in common law most english speaking countries

**Hearts & Other Body Parts** 2017-03-28 a novel of love and monsters sisters esme katy and ronnie are smart talented and gorgeous and better yet all three are witches they have high school wired until the arrival of two new students the first is norman who is almost eight feet tall and appears to be constructed of bolts and mismatched body parts despite his intimidating looks esme finds herself strangely almost romantically drawn to both his oversized brain and oversized heart the second new arrival is zack an impossibly handsome late transfer from the uk who has the girls at school instantly mesmerized soon even sensible esme has

forgotten norman and all three sisters are in a flat out hex war to win zack but while the magic is flying only norman seems to notice that students who wander off alone with zack end up with crushed bones and memory loss or worse missing entirely hearts other body parts is a wickedly addictive novel about love monsters and loyalty and oh yeah a japanese corpse eating demon cat
