**El profesorado como agente de cambio** David Parra Monserrat, Xosé Manuel Souto González, 2022-07-11 La profesión docente es un ámbito de debate y opinión constante en la institucionalización del conocimiento y en el acceso a la educación, en especial en sociedades democráticas en las que esta es considerada un derecho fundamental. Para dar cuenta de la complejidad del sistema escolar y señalar la importancia de la figura docente, el presente volumen recoge un compendio de capítulos que se enmarcan en el proyecto de investigación Las representaciones sociales de los contenidos escolares en el desarrollo de las competencias docentes (PGC2018-094491-B-C32), financiado por el Ministerio de Ciencia e Innovación del Gobierno de España. Se ha pretendido ofrecer una visión poliédrica de los resultados alcanzados por dicho proyecto en el año 2021, en el ámbito de los dos grandes objetivos que se marcaron al inicio del mismo: a) Categorizar las concepciones del profesorado (en formación y en ejercicio) sobre la Historia y la Geografía escolares y analizar el peso de las mismas como posibles obstáculos para la transformación de los modelos didácticos. b) Evaluar las representaciones y estereotipos socioculturales presentes en el profesorado en formación y en ejercicio y su incidencia en el proceso de enseñanza/aprendizaje. Este libro ofrece, por tanto, el desarrollo de un proyecto y la consecución de unos objetivos que, más allá del diagnóstico, han mostrado la importancia de la necesaria implicación del profesorado para promover una renovación profunda en el sistema escolar en sus distintos niveles. Dicha mejora de la enseñanza y aprendizaje escolar pasa por cambios institucionales, organizativos, epistemológicos, metodológicos que necesariamente debe implicar un autocuestionamiento de la praxis y la identidad profesional, especialmente si entendemos la educación como un derecho y un motor para la participación de la ciudadanía en la esfera pública democrática. Pero sin el compromiso personal, subjetivo, es difícil avanzar en la mejora deseada.

**The First New Chronicle and Good Government** Felipe Guaman Poma de Ayala,2010-01-01 One of the most fascinating books on pre-Columbian and early colonial Peru was written by a Peruvian Indian named Felipe Guaman Poma de Ayala. This book, The First New Chronicle and Good Government, covers pre-Inca times, various aspects of Inca culture, the Spanish conquest, and colonial times up to around 1615 when the manuscript was finished. Now housed in the Royal Library, Copenhagen, Denmark, and viewable online at [www.kb.dk/permalink/2006/poma/info/en/frontpage.htm](http://www.kb.dk/permalink/2006/poma/info/en/frontpage.htm), the original manuscript has 1,189 pages accompanied by 398 full-page drawings that constitute the most accurate graphic depiction of Inca and colonial Peruvian material culture ever done. Working from the original manuscript and consulting with fellow Quechua- and Spanish-language experts, Roland Hamilton here provides the most complete and authoritative English translation of approximately the first third of The First New Chronicle and Good Government. The sections included in this volume (pages 1-369 of the manuscript) cover the history of Peru from the earliest times and the lives of each of the Inca rulers and their wives, as well as a wealth of information about ordinances, age grades, the calendar, idols, sorcerers, burials, punishments, jails, songs, palaces, roads, storage houses, and government officials. One hundred forty-six of Guaman Poma's detailed illustrations amplify the text.

**Teaching and Learning for the Twenty-First Century** Fernando M. Reimers,Connie K. Chung,2019-01-02 This book

describes how different nations have defined the core competencies and skills that young people will need in order to thrive in the twenty-first-century, and how those nations have fashioned educational policies and curricula meant to promote those skills. The book examines six countries—Chile, China, India, Mexico, Singapore, and the United States—exploring how each one defines, supports, and cultivates those competencies that students will need in order to succeed in the current century. *Teaching and Learning for the Twenty-First Century* appears at a time of heightened attention to comparative studies of national education systems, and to international student assessments such as those that have come out of PISA (the Program for International Student Assessment), led by the Organisation for Economic Co-operation and Development. This book's crucial contribution to the burgeoning field of international education arises out of its special attention to first principles—and thus to first questions: As Reimers and Chung explain, “much can be gained by an explicit investigation of the intended purposes of education, in what they attempt to teach students, and in the related questions of why those purposes and how they are achieved.” These questions are crucial to education practice and reform at a time when educators (and the students they serve) face unique, pressing challenges. The book's detailed attention to such questions signals its indispensable value for policy makers, scholars, and education leaders today.
