Landmark Intellectual Property Cases and Their Legacy 2011-01-01

this is a book dedicated to the significance and legacy of landmark cases in the field of intellectual property eleven well known scholars offer in depth commentary and analysis of cases that have made an impact on legal theory or critical thinking about the scope and purpose of the protection of intellectual and industrial creativity all the cases covered have proven useful in developing doctrine even though subsequent developments have made some appear and misleading and rather than leading and for some recent cases it is too early to say whether their approach will become mainstream among the fundamental questions and all profoundly interesting and to which no definite answers have yet been found and arising in the course of the analysis are the following and who should be master over the reputation esteem and legacy of authors and their works and authors and their heirs or subsequent copyright owners and what if any protection should be granted to achievements in the absence of confusion and should prevention of unfair competition allow one to and reap what one has not sown and should we protect commercial investment beyond the scope of defined intellectual property rights and should it be considered a tort to use a well known mark in a way that may dilute its repute and distinctive character and what kinds of monopolies should be protected if any and does the patent system in its current form allow us to question the assumption that technological progress is good per se and that novel and inventive solutions should thus be protected and should extraneous considerations such as public good and social usefulness be considered at the stages of grant and enforcement of patent rights and should we grant patents over living organisms whose workings and reproduction are a long way from being completely understood and should the rules developed for the enforcement of

property rights limit a patentee's remedies to appropriate damages thereby effectively granting a compulsory licence the book concludes with an analysis of two case clusters remarkable for the worldwide dimension of the dispute the authors show how litigation over Lego in about 30 jurisdictions and Budweiser in over 40 jurisdictions has enriched doctrine on such issues as contract trade marks trade names geographical indications property rights in general human rights and various international and bilateral treaties all as they impinge on the protection of intellectual property rights for scholars in the field as well as for lawyers seeking a rich vein of doctrine to buttress a case this unusual book will be of incomparable value as a masterful clarification of salient doctrine it represents a major contribution to the legal theory underpinning intellectual property law

Silent Spring 2002

the essential cornerstone book of modern environmentalism is now offered in a handsome 40th anniversary edition which features a new introduction by activist Terry Tempest Williams and a new afterword by Carson biographer Linda Lear

Bargaining for Development 2003

bargaining for development is a one of a kind handbook that explores the policy and planning principles behind land development conditions vested rights and development annexation agreements and provides guidance for the practicing professional government and land development communities in evaluating the need for and the drafting of land development statutes ordinances and agreements the handbook's basic premises are two fold first land development and annexation agreements offer an excellent vehicle for government and landowners to provide in detail for land developments second because of the law pertaining to vested rights and land development conditions the development community needs more assurances concerning the continued viability of their projects and the government community requires more in the way of public facilities than the common law grants to either vested rights to proceed with a development including the multi stage variety are not easy to come by under the applicable legal principles public facilities not closely tied to a land development project through nexus and proportionality are similarly difficult to legally enforce a development agreement provides for both

Landmark Cases in Property Law 2015-06-25

landmark cases in property law explores the development of basic principles of property law in leading cases each chapter considers a case on land personal property or intangibles discussing what that case contributes to the dominant themes of property jurisprudence how are property rights acquired what is the content of property rights what are the limits or boundaries of property how are property rights extinguished individually and collectively the chapters identify a number of important themes for the doctrinal development of property institutions and their broader justification these themes include the obscure and incremental development of seemingly foundational principles the role of instrumentalism in property reasoning the influence of the law of tort on the scope of property doctrines and the impact of Roman legal reasoning on the common law of property one or more of these themes and others is revealed through careful case analysis in each chapter and they are collected and critically explored in the editors' introductions this makes for a coherent and provocative collection and ensures that landmark cases in property law will be lively and essential reading for scholars practitioners and all those interested in the development of property principles at law

Landmark Cases in Competition Law 2012-12-01

it is the thesis of this fascinating and highly instructive book on competition law that an examination of one landmark case scenario or saga each from a range of legal systems leads to a thorough understanding of the issues informing and arising from competition policy law and legal practice to that end leading scholars from 14 jurisdictions enhance their academic authority and rigour with an element of panache to describe a particularly salient case in each of their countries commenting in depth on the contribution of the case to the development of their particular competition law culture and to the case s enduring significance for competition law and its enforcement from a global perspective there are chapters for each of thirteen countries as well as the european union preceded by an informative and thoughtful introduction for each landmark case selected the legislative background the case facts and the legal ruling and reasoning are all minutely described along with commentary critique and assessment of the case s impact and contemporary significance the cases cover vast swathes of the competition law territory in terms of substance and procedure dealing with cartels abuse of dominance mergers and vertical restraints and involving diverse forms of public and private enforcement processes aspects covered include the following the public interest test bid rigging in public procurement the entitlement of dominant companies to compete on a level footing with other companies the hard to draw line between legitimate competition and unlawful monopolizing conduct the dangers of eclectic borrowing in the development and interpretation of competition law rules horizontal price fixing collusion hub and spoke cartels resale price maintenance agreements and the u s rule of reason the increasing use of private enforcement and the right for victims of a competition law infringement to seek compensation merger control in energy markets and the political use of merger review rules to benefit domestic firms cooperation with criminal enforcement agencies and prosecutors the role courts play in undertaking adequate legal supervision of competition authorities leniency processes and obtaining access to confidential whistleblowing documentation imposition of administrative fines and other deterrence based sanctions and how the consumer welfare standard is interpreted more than a set of landmark case descriptions this book in which

many chapters reflect upon recent and consider further future significant reforms demonstrates that competition law and its enforcement processes form part of a chronological narrative and that it is important to understand the broader legal social and economic context within which competition law and policy develop this wider perspective will prove immeasurably valuable to the many practitioners business people jurists and policy makers engaged in the shaping of competition law in any jurisdiction and will moreover be essential reading for postgraduate students studying any aspects of comparative competition law enforcement
